AYUSH RUDANI

WEB AND MOBILE APP DEVELOPER

PROFILE

I'm currently pursuing B.TECH in Computer Science Engineering. Currently, I am getting better at mobile app development and web development. I have a basic knowledge of Databases and API.

PROJECTS

Quiz App

- I have created a quiz app flutter(Dart) and use API to fetch data from database and show it to the user.
- it has two themes dark and light. and it's to improve the programming knowledge of students

Beat Store

- an HTML, CSS, JS, and PHP-based website. it's useful for a music producer to sell their beats online. it's also useful for artists to buy beats online.

Library Management, Quiz Website
